

Revitalizing Senior Nutrition Programs in Texas: Insights from a Learning Collaborative

Texas Association of Area Agencies on Aging Meeting
February 5, 2025

Public Policy Research Institute,
Texas A&M University

Andrea Sesock, Linda Netterville,
Dr. Nandita Chaudhuri

Presentation Outline

**SNP Modernization
Conversation & 4 Projects**

**Strategies, Best Practices,
Outcomes Snippets**

**Leverage LC Insights & Tools
for Future**

Motivation: Why SNP Modernization?

Decline in Participation

- **Lack of Awareness & Marketing,** Transportation; Changing Senior Demographics, Stigma & Pride, Unappealing & Unwelcome Settings, Meals & Activity Limitations

What Works in Increasing Participation?

- **Strategic Marketing & Partnerships**
- Revitalization of Activities & Settings
- Regional Adaptations
- Updating & Creative Rethinking of Meals & Menu

Increase
visibility &
value

Adapt and
promote
programs

Increase
participation

**Context: Informed By
PPRI Gap Analysis
Findings From
2019-2020**

Four Research-to-Practice SNP Modernization Projects

Texas Congregate Meal Initiative (TCMI)

AAAs

254
counties

Nearly 200
Senior
Nutrition
Providers

Why Facilitate an Expanded Learning Collaborative (LC)?

- ☐ Raise Awareness
- ☐ Stronger Social Marketing
- ☐ Community Engagement
- ☐ Demonstrate Impact
- ☐ Secure Funding & Support
- ☐ Policy Advocacy
- ☐ Program Replication

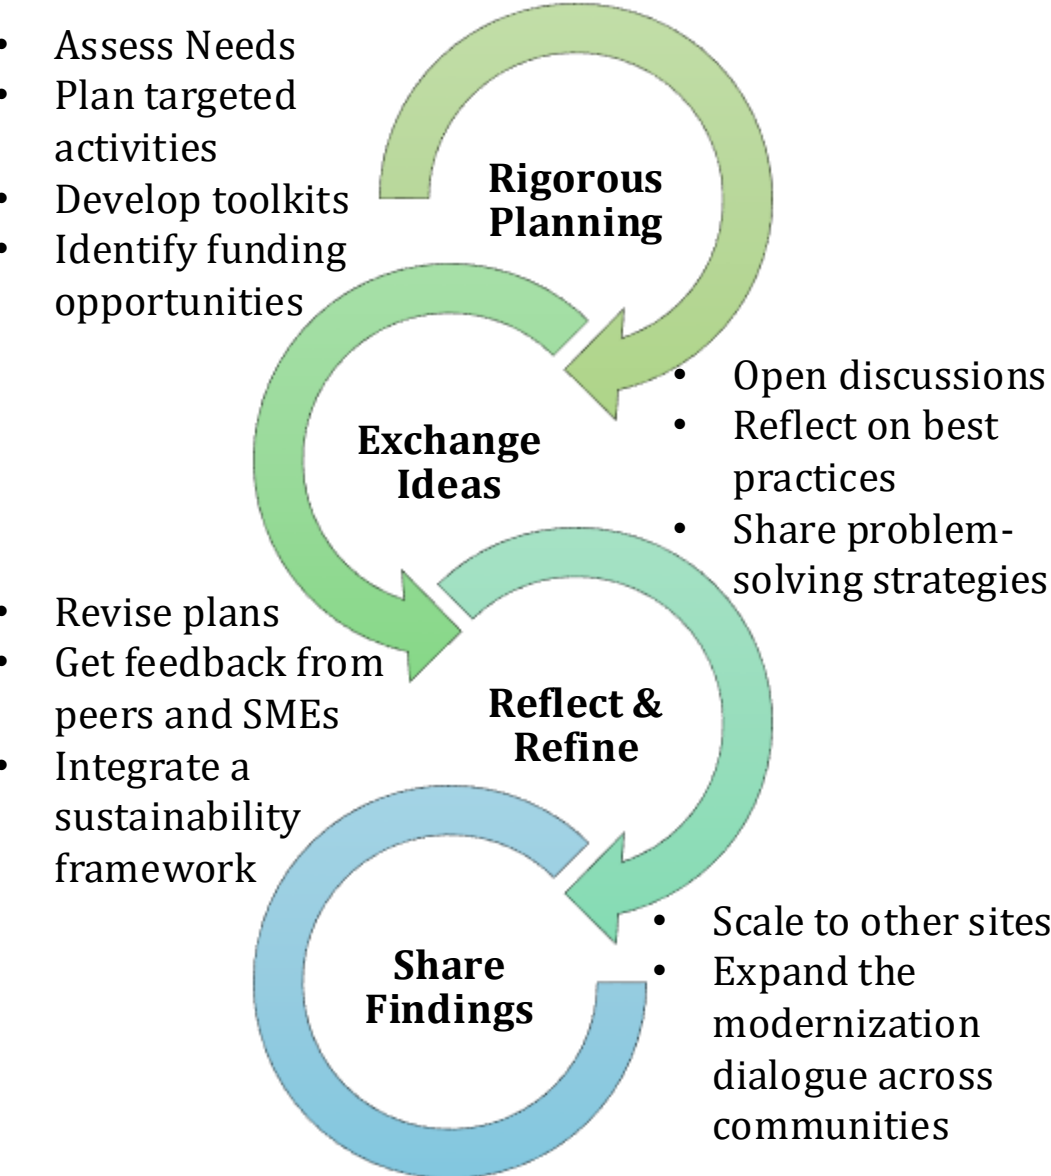

“Data on meal participation, nutritional quality of meals, and participant health outcomes help evaluate whether we are achieving our goals and making a positive impact on the community!”

–TCMI Site Partner

Learning Collaborative: Sustainability & Repertoire Building

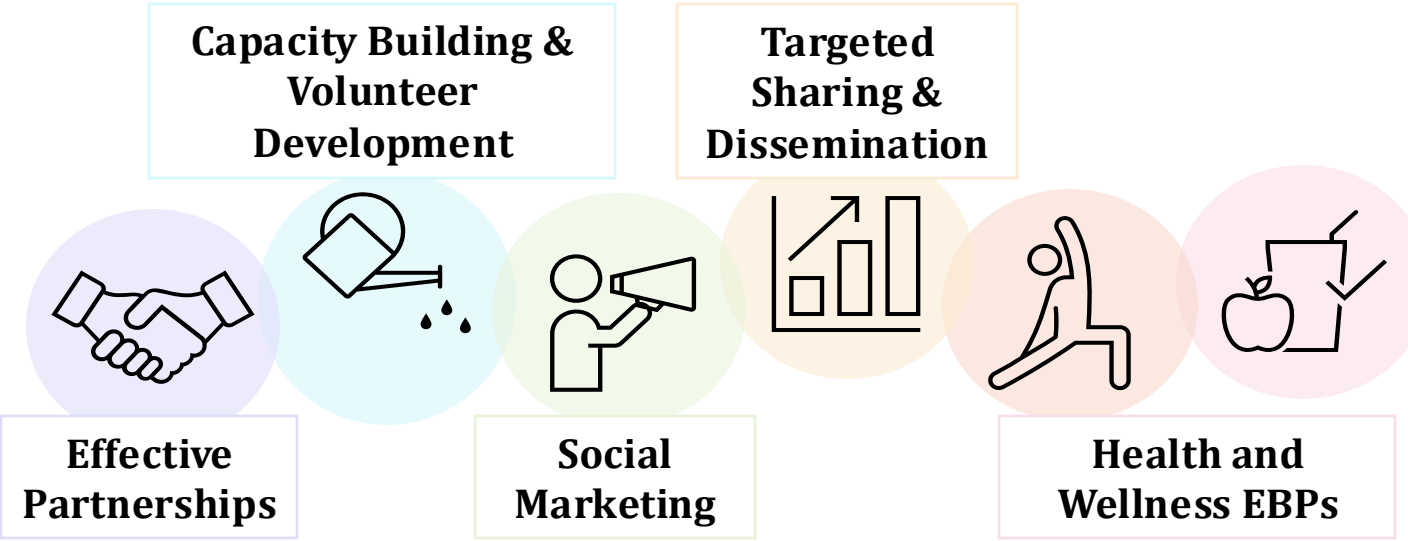

Common Learning Collaborative (LC) Cycle

Expanded LC Key Components

- Promote practice-based conversation to improve service delivery
 - SNP & AAA staff
 - Subject Matter Experts
 - Texas Aging Network
 - SNP Partners & Researchers across Nation
- Committed multi-year learning periods
- Feedback loop on Topics, Future Directions
- Repertoire Development, Connected Website
- Learning series: Next Meeting is March 4, 2025

LC Expansion & Focus, Urgent Topics

Developing Innovative Nutritional Experiences (DINE) in Texas (2023-2026)

Funded by Administration for Community Living (ACL)

PROJECT GOALS

- Successfully implement (replicate) the Iowa Encore Café Model through a Learning Collaborative to improve site profiles and client social determinants of health outcomes
- Strategize and implement multiple robust sustainability strategies to promote the continuation of the model

Low-cost Innovation Examples

CDSME Management and Engagement for Aging LearnerS (MEALS) (2023-2027)

Funded by Administration for Community Living (ACL)

PROJECT GOALS

- Develop replicable and sustainable tools and protocols
- Grow the capacities of CMPs for evidence based CDSME programs

Eat Smart, Move More, Weigh Less

- 15-week online 1 hour per session course
- Lessons focus on healthy eating and a couple physical activities
- Instructor checks-in once a week with participants
- Focus on behavioral change over time

¡Sí, Yo Puedo Controlar Mi Diabetes!

- 4-week diabetes education program
- Delivered weekly in 1-2-hour sessions in person
- Delivered by a bilingual registered nurse or a dietitian
- Culturally relevant material (bilingual, novella based)

Senior Adult Falls Education and Reduction (SAFER) Meals (2024-2025)

Funded by the National Council on Aging

Project Objectives

- Implement and evaluate evidence-based AMOB program at two congregate meal programs sites in San Antonio, Texas.
- Strategize and implement concomitant social marketing strategies to impact MOB implementation.
- Utilize PPRI's current CDSME Learning Collaborative (LC) structure for the partnering sites to empower their capacities.

A Matter of Balance
(MOB)

- An **evidence-based Fall Prevention Program** designed to manage falls and help older adults move with confidence.
- MOB consists of **8 two-hour sessions**, either once per week for 8 weeks or twice a week for 4 weeks where older adults will learn to:
 - View falls as controllable
 - Set goals for increasing activity
 - Make changes to reduce fall risks at home
 - Exercise to increase strength and balance

EVERYONE is welcome here!

8 FREE MATTER OF BALANCE SESSIONS

JOIN OUR FALL PREVENTION CLASS

Falls are the leading cause of injury for adults 65 and older.

A Matter of Balance is an award-winning program designed to help manage falls!

WHO SHOULD ATTEND?

- Anyone concerned about falls
- Anyone interested in improving balance, flexibility and strength
- Anyone who has fallen in the past
- Anyone who has restricted activities because of falling concerns

YOU WILL LEARN TO:

- View falls as controllable
- Set goals for increasing activity
- Make changes to reduce fall risks at home
- Exercise to increase strength and balance

STARTING DATE: TBD
DAY: TBD
TIME: TBD

LOCATION:
Woodlawn Pointe Center for Community
702 Donaldson Ave
San Antonio, TX 78201

For more information, or to register call: (210) 468-2787

Logos at the bottom: UT Health San Antonio, Woodlawn Pointe Center for Community, and A Matter of Balance.

Key Strategies & Practices: What Works?

Social Marketing

WHY?

- ❑ To attract participants, volunteers, staff, and local partners
- ❑ To promote value of services effectively, build trust
- ❑ To help stay competitive, appeal to new and existing participants, advocate for continued funding

HOW?

- ❑ Keep marketing techniques as valuable tools in program toolbox
- ❑ Use advertising, direct marketing, sales promotion, personal selling, digital marketing
- ❑ Market on multiple channels
- ❑ Utilize local partnerships
- ❑ Use appropriate language

Encourage healthy eating

- A healthy diet is essential to overall wellness
- 1 out of 2 older adults is at risk or is malnourished

Raise food access awareness

- Access to food is a social determinant of health
- 4.9 million seniors do not have reliable access to enough affordable, nutritious food

Address participation barriers & promote social connection

- Staying connected is an important part of healthy aging
- Transportation challenges, stigma, lacking a social network

Most Texas SNP sites feel that marketing and awareness building efforts make their communities and local partners more aware of the SNPs

Possible Partnerships

- **Non-profits and Local Businesses**
- **Schools and Community Health Programs**
- **Local Media & Cultural Organizations**
- **City Councils & Chambers of Commerce**

Partnership Sustenance Tips

- ✓ **Ongoing Communication**
- ✓ **Milestone Celebration**
- ✓ **Long Term Collaboration**
- ✓ **Shared Responsibilities**
- ✓ **Impact Dissemination**

There is no one size fits all approach!

Partnership Building & Social Marketing Go Together!

KEY PROGRAM CHALLENGES

- **How to market program value to partners?**
- **How to convince partners about common goals?**
- **How to sustain relationships already built?**
- **How to leverage partnerships for social marketing?**

Identify Potential Partners

Define Common Goals & Mutual Benefits

Develop Joint Strategies

Leverage Resources & Networks

Adjust Strategies & Evaluate What Works

Sustain Relationships

Community Partnership Building Strategies

Local Businesses

- Advertising Agencies, Restaurants, Craft Stores, Bake Shops, Florists, Funeral Homes

Civic Organizations & Special Interest Groups

- Rotary, Lions Club, AARP, Local Clubs

Other Non-Profits & Faith-based Organizations

- Food Banks & Pantries, Churches

Local Government , Healthcare & Local Schools

- Parks & Rec, Health Dept., Hospitals, Community Colleges, Culinary Schools, Local Industries

Developing a volunteer recruitment strategy

Set some
recruitment
guidelines.

Determine how
you'll recruit
volunteers.

Identify
potential
volunteers.

Begin
recruiting
volunteers.

Refine your
strategy
and invest in
retention.

Tips to Recruit & Retain Volunteers

- Use appropriate guidelines and policies
- Market on multiple channels
- In-person outreach at community and SNP events
- Identify potential volunteers
- Don't forget about rewarding & incentivizing
- **Utilize local partnerships!**
- **Find out what's working!**

Successful Volunteer Development Strategies

**Recruiting from
Local Pool**

**Crafting
Appropriate
Message**

**Mixed Media
Channels**

**Continuous
Incentivizing**

**Evaluating
Success**

**Strategic
Retention**

There is no one size fits all approach!

Success Outcome Snippets: Telling the Story

DINE in Texas Outcomes

After one year of implementation DINE Sites Showed:

Increased Client Satisfaction

- An overall increase in **client satisfaction**
- On average, the satisfaction rate increased **4.62%**, with one site experiencing an **8.36%** increase

Social Connection, Mental Wellbeing, Food Security

- **99.3%** of participants agreed that program helped them connect with friends and peers
- **89.3%** of participants felt less sad or anxious by participating in the program
- **92.7%** of participants said program helped them access healthy meals and feel more food secure

Noticeable Difference in Quality

- **47.1%** of clients noticed improvements in quality of food and/or ambiance

CDSME MEALS Outcomes

¡Sí, Yo Puedo Controlar Mi Diabetes! [SYP]

- **Program Satisfaction**
 - **60.47%** of participants were satisfied or very satisfied with the diabetes management program
- **Diet Change**
 - **78.65%** of participants were confident or more than confident to choose the appropriate foods

Eat Smart, Move More, Weigh Less [ESMMWL]

- **Program Satisfaction**
 - **75%** of participants were satisfied or very satisfied with the program
- **Behavioral Change**
 - **74%** of participants started or continued to exercise since the beginning of the program

SAFER MEALS Outcomes

94.70% were satisfied with the overall quality of the MOB class

100% of participants reported reduced fear of falling

100% said they would recommend MOB to a friend or relative

I can find a way to reduce falls

Series1 Series2

I can protect myself if I fall

Series1 Series2

Learning Collaborative Outcomes

91.7%

of participants think LC meetings have been **helpful**

Learning Collaborative components participants find **extremely useful**:

Collaboration with peers

Marketing planning and support

Learning about **capacity building strategies**

Technical assistance by PPRI staff, peers and SMEs

What LC participants have said:

[I liked] learning different perspectives and how they are able to **leverage different partnerships**.

I really enjoyed hearing from everyone on the call. It was inspiring to hear about the **connections and partnerships** they've been able to grow in their communities.

[I liked] hearing from **local service providers** about their experience and expertise

Speakers really highlighted the importance of making the **experience mutually beneficial** for their organization and the volunteers. It was great to hear about the ways they encourage participation and nurture those relationships.

How to Strengthen the Texas SNP Modernization Conversation & Practice?

Outcomes & Success Stories

Evaluation

- Using social scientific evaluation methods to track success and challenges
- Using expanded Learning Collaborative to reflect on lessons

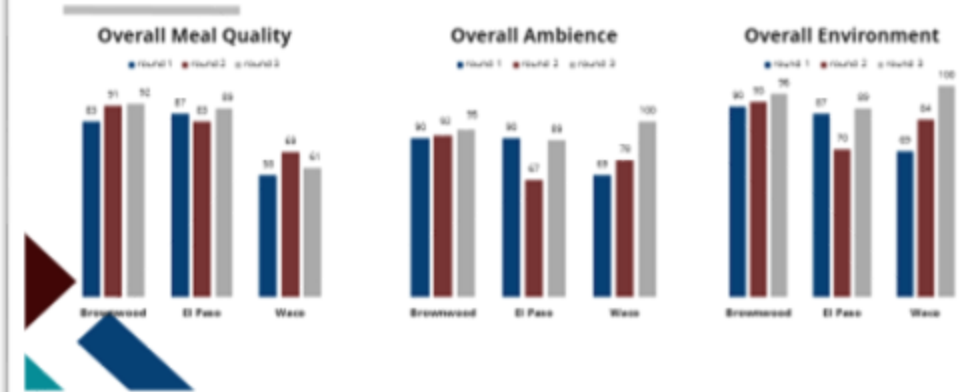

Reporting

- Grant reports, presentations, publications.

Targeted Conference Settings: Aging in Texas, MOW Texas, MOW America, US Aging, NANASP, NCOA, TARC, TPHA

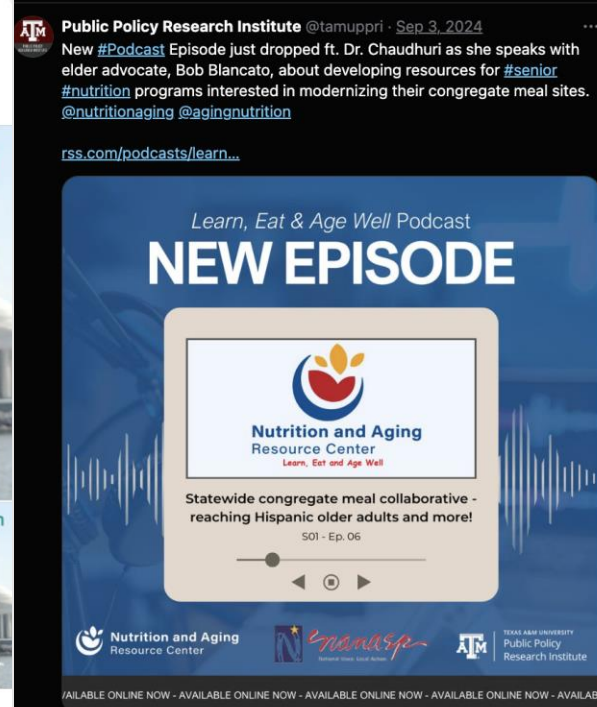

Other Dissemination Settings: Public Health Journals, Newsletters, Aging Task Forces, Podcasts, Videos

Satisfaction Rates by Site Location and Survey Rounds

Targeted Repertoire Building

knowledge sharing

Developing Innovative Nutrition Experiences (DINE) in Texas

In partnership with three Senior Nutrition Programs (SNPs) in rural Texas and supported by their respective Area Agencies on Aging (AAAs), the DINE in Texas project aims to implement selected features from and assess fidelity to the Iowa Encore Café Model Toolkit.

PROJECT DESCRIPTION

Detailed information about the project goals and objectives

Management & Engagement for Aging LearnerS (MEALS)

2023 – 2027

PROJECT DESCRIPTION

Of the exponentially growing aging population in Texas, people 65 and older have high rates of chronic conditions addressing which is a significant cost burden on the state, a problem that will exacerbate over the next three decades (Adams et al, 2022). Expecting to reach 9.4 million in 2050, three out of four older adults have multiple chronic conditions which place them at greater risk for poor health-related quality of life, unnecessary hospitalizations, and even premature death (Adams et al, 2022). Engaging them in evidence-based chronic disease self-management education programs can positively affect their health and mitigate the chronic disease burden (Administration for Community Living, 2022).

SPONSORS

Administration for Community Living

APPROACH

- Program and Policy Evaluation
- Research Design and Data Analysis
- Survey Research
- Technical Assistance

MEALS aims to address this problem by implementing an ACL-endorsed evidence-based CDSME program and a self-management program in three critical high-need areas of Texas: Dallas County, encompassed within Public Health Region (PHR) 3, Angelina County (PHR 5), and the Lower Rio Grande Valley (PHR 11). These areas are served by Dallas County Health and Human Services, the Angelina County Senior Center, and Amigos del Valle, respectively, each of which provides congregate meal services to older Texans in

Strengthening Community-Based Care Supports: AAAs & ADRCs

Provide support
through **informed
planning** for SNPs as
entry point for
community-based
services

Facilitate collaborative
partnerships that
contribute to
sustainability

Leverage **best practices**
& strategies that work

Support **additional
funding sources for
innovations &
modernization**

- Title III-D, private foundations, healthcare agencies, partnership with other states, translational projects

Collaborative Path Forward: AAAs, ADRCs & SNPs

Active

Be an active part of the Expanded Learning Collaborative Conversations

Help

Help Replicate Successful Practice Models

Foster

Foster Community Partnerships

Identify

Identify Ways to Facilitate Collaboration

Utilize

Utilize Outcomes Data, Gaps Knowledge & Tools to Support Programs, Practices and Sustainability

Takeaway Reflections

Why AAA Partnership & Lead is critical for SNPs in Texas to implement successful programs?

Ways through which AAAs ensure SNP organizational impact and successes are utilized through marketing and partnerships.

What from the 4 projects that are reimagining the SNP landscape could be leveraged for a path forward.

More LC Meetings Coming Up!

Connect with TEXAS AGING NETWORK & national stakeholders!

Disclaimer

This work is supported, in part by grant numbers 90INNU0054 and 90CSSG0059, from the Administration for Community Living (ACL), U.S. Department of Health and Human Services, Washington, D.C. 20201. Grantees undertaking projects with government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore, necessarily represent official ACL policy. This work is also supported, in part, by the National Council on Aging (NCOA).

THANK YOU!
