

## COMPANY OVERVIEW

TCARE's® Evidence-Based, ACL-Accredited and CMS-Approved Family Caregiver Support program (FCSP) reduces family caregiver burnout and delays nursing home placement. TCARE's evidence-based predictive technology saved Washington State Department of Social and Health Services over **\$10M** in a 2,300-caregiver pilot by delaying nursing home admissions by 18-24 months, which led to TCARE approval under a CMS 1115-waiver as Medicaid-Approved. **Clients include Area Agencies on Aging, State Units on Aging, Insurance Providers, Community Based Organizations and is utilized in Title III-E, Title III-D, Title VI, Veteran Caregiver Support Services and more!!!**

### TCARE System

TCARE enables family caregivers to keep their loved ones at home longer. TCARE's aging-in-place enterprise SaaS solution partners with government and healthcare entities. TCARE uses its scientifically-validated algorithms to create an individualized care plan, which reduces stress and burnout of caregivers and allows their loved ones to age in place.

#### SYSTEM PROVIDES:

- Resource Database
- Comprehensive Assessments
- Outcome-based Reporting
- Person Centered Care plans
- Root Cause Burnout Identification
- Automated Check-in Gauging Caregivers On-going Stress Levels

### EVIDENCE & IMPACT STUDY

Following a pilot with Washington, the Centers for Medicaid and Medicare Services (CMS) approved TCARE and is now integrated into Washington's Long-Term Care Medicaid program. Washington State's longitudinal study showed:

**\$10m SAVINGS**  
Serving 2.3k pop.

**DELAYED PLACEMENTS**  
IN NURSING HOMES  
By 18-24 Months

**20%**  
REDUCTION IN  
MEDICAID SERVICES

**84%**  
REDUCTION IN  
STRESS & DEPRESSION  
WITHIN 6 MONTHS

### COMPETITIVE ADVANTAGE

TCARE provides the only proven evidence-based, Medicaid reimbursed family caregiver support solution. TCARE is a cloud-based, multilingual care management platform with proven outcomes and substantial cost savings. TCARE has **impacted over 100,000 family caregivers to date and is clinically proven to reduce stress and depression in family caregivers.**
